MINT OF THE UNITED STATES,

MELTING AND REFINING DEPARTMENT.

Philadelphia, Feby 9th 1863

Prof: Booth.

My Dear Sir.

Your note requesting permission to examine the well on the premises of the 7th Church has been received, and Directions have been given the Sexton to give you all facilities for the prosecution of your examination. May I ask your influence in having our application for roof repairs favorably considered. Its delay may ruin our ceiling which we have just had renewed.

Very respectly

Stuckland & Smith

9. Feb. 1863

Strickland Kneass

With permission to open well of church adjoining Mint
